Please be advised that Jarrow Formulas, Inc. is marketing a product containing a "Structure and Function" statement on the label. According to the notification requirements set forth by the DSHEA (Dietary Supplement Health and Education Act, 1994) legislation, please be advised of the following:

**Name of Product:** C + Herbs, 60 Quik-Solv<sup>TM</sup> Tablets

**Active Ingredient(s):** Silymarin 30:1 concentrate (standardized to 80% silybin), PicroLiv<sup>TM</sup> (3.5-4% Kutkin from Picorrhiza kurroa), Astragalus Root 6:1, Schisandra 5:1, Scutellaria (Skullcap) Root 4:1, Vitamin C (Ascorbic Acid)

**Claim(s):** "Antioxidant Protection." C + Herbs contains a synergistic blend of premium standardized phytochemicals (beneficial compounds found in plants) concentrated in bioflavonoids. The botanical combination was selected for the complementary bioflavonoid-rich profile. Herbs such as Silymarin and PicroLiv<sup>TM</sup> are included because they contain flavonoids that support antioxidant function in hepatocytes (liver cells). Vitamin C is a basic antioxidant and is essential to the synthesis of collagen and the health of connective tissue, gums, teeth and bones.

**The following disclaimer appears on the label:** These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

These claims are limited to, and a result of, what we believe to be a substantial body of scientific evidence supporting the functional role of these nutrients. A compendium of relative published research substantiating the above statement(s) is on file at the corporate office.

Respectfully submitted,

Siddharth S. Shastri, B.A., C.C.N.  
Director of Product Development

**SUGGESTED USAGE:** As a dietary supplement, take 1 or more tablets daily with a meal, or as directed by your qualified health consultant.

**C + Herbs** contains a synergistic blend of premium standardized phytochemicals (beneficial compounds found in plants) concentrated in bioflavonoids. The botanical combination was selected for the complementary bioflavonoid-rich profile. Herbs such as **Silymarin** and **PicroLiv™** are included because they contain flavonoids that support antioxidant function in hepatocytes (liver cells). Vitamin C is a basic antioxidant and is essential to the synthesis of collagen and the health of connective tissue, gums, teeth and bones.
